The Farmhouse Rustic Style Guide

Warm, natural, lived-in from day one.

DELIGHTFULLY-DESIGNED.COM · STYLE GUIDE SERIES

Defining Farmhouse Rustic

Farmhouse Rustic style leans on natural materials and a lived-in feel: reclaimed wood, soft linen, and simple hardware that never feels fussy. Soft whites and creams keep the palette calm, while wood grain and woven textures add warmth. It's the style of a home built for gathering, not just for looking at.
